# Taking the Sting Out of Messaging

Businesses rely upon real time communications,  
**but lack of messaging management can pose  
grave information and network security risks.**

You know the speed and ease of e-mail and instant messaging can be sweet for business, but without the right systems in place, users can get stung.

**Helio Solutions**, a Sun Microsystems iForce<sup>SM</sup> Partner, is just the balm you need for reliable enterprise messaging. We combine software specifically designed for the corporate setting with Sun Microsystems<sup>TM</sup> secure Solaris<sup>TM</sup> operating system which unites role-based access control, single sign-on, and identity management. Our solutions provide secure and superior:

- Front-end filtering
- Storage
- Archiving and retrieval
- Instant Messaging management

*Bee watching your mail for more information  
about enterprise messaging strategies from Helio Solutions,*

*the buzz in business communications.*
